DESCRIPTION

The 80x80 ESD cover cap seals screw openings on gusset brackets in the Bosch Rexroth profile system, keeping them free of contamination and protecting against electrostatic discharge. Made from ESD-grade polypropylene, it is suitable for use at ESD-protected workstations in electronics assembly and production environments.

- ESD-compliant - safe use at ESD-protected workstations
- PP material - lightweight, chemical-resistant and dimensionally stable
- Black colour - consistent appearance across the profile system
- Packaging unit of 20 - cost-effective stocking
