DESCRIPTION

The 45x45 ESD cover cap provides a clean finish on gusset connections within 45x45 aluminium profile systems, shielding the joint from dust and mechanical damage. The antistatic PP material meets ESD requirements for assembly lines and workstation systems in electrostatically sensitive environments.

- ESD-compliant design for electrostatically sensitive production and assembly areas
- Polypropylene construction - lightweight, corrosion-resistant and dimensionally stable
- Precise 45x45 dimensions for a flush fit on corresponding gusset profiles
- Black colour for a consistent appearance across workstation systems
- Packaging unit of 20 pieces for cost-effective procurement
