

Schnellspanverbinder N10 90° rostfrei, Profilnut 10, 140 Nm - Bosch Rexroth 3842548938

Item no. BRR-3842548938 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842548938

Right-angle quick connector for aluminium profile systems with slot 10, made from stainless steel. Joins profiles in the 10/10 series at 90° without complex machining, with ESD compliance and a permissible bending moment of 140 Nm. Combine with the anti-torsion element for a permanently backlash-free connection.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	China
ESD-Ausführung	ESD (antistatic)
Weight	0.031 kg
Zolltarifnummer	83024900

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Quick Connector N10 90° VA joins slot-10 aluminium profiles at a right angle quickly and with minimal tooling. Stainless steel construction makes it suitable for corrosive or hygiene-critical environments, and the ESD-compliant design covers electrostatically sensitive assembly areas.

- 90° mounting orientation - right-angle connections without drilling or tapping
- Stainless steel - corrosion-resistant for cleanroom, food, or wet environments
- ESD compliant - safe for use in electrostatically sensitive production areas
- Bending moment of 140 Nm - load-bearing capacity for structural frames in the size-10 profile system
- Rectangular head, 17 mm diameter - locks securely in the profile slot without rotation under load

Technical data

Attribute	Value
Profile slot	10
Profile [P]	10 / 10
Mounting orientation	90°
Head shape	Rectangular
Diameter D	17 mm
Bending moment 1	140 Nm
Material	Steel, stainless
ESD	Yes
Packaging unit	10 pieces
Recommended accessories	Anti-torsion element, Radial compensation, Drilling jig, Cap
Weight	0.031 kg
