DESCRIPTION

The N10 slot profile in TPE securely retains sheet metal panels, cover plates, and surface elements within the 10 mm profile slot of Bosch Rexroth aluminium profile systems. The 3 to 8 mm clamping range accommodates varying sheet thicknesses without additional fasteners, and the 10000 mm standard rod length allows on-site cutting to the exact length required.

- Clamping range 3-8 mm - fits different sheet thicknesses without tools or additional hardware
- TPE material - soft, flexible, and durable for lasting edge protection
- Signal gray RAL 7004 - matches the standard colour scheme of Bosch Rexroth assembly profiles
- 10000 mm rod length - cost-efficient custom cutting directly at the assembly line
- Profile slot 10 - direct compatibility with the Bosch Rexroth 10 mm slot system
