ESD safe

DESCRIPTION

The 20.5x30 mm cover cap closes open slots on Bosch Rexroth slot-8 profiles, keeping machining chips, dust and debris out of assembly and production line structures. The ESD-grade PP material safely dissipates electrostatic charges, making it suitable for use in EPA (electrostatic protected area) workstation systems. The black finish integrates cleanly into standard aluminium profile constructions.

- Fits slot-8 profiles with 20.5x30 mm cross-section and 30 mm modular dimension
- ESD-grade PP - safe for use in electrostatically protected environments
- Protects profile slots from dirt, chips and mechanical damage
- Tool-free snap-in installation
- Packaging unit of 20 pieces - cost-effective for larger assemblies
