

Verbindungselement für Kabelkanäle, Signalgrau RAL 7004 - Bosch Rexroth 3842552240

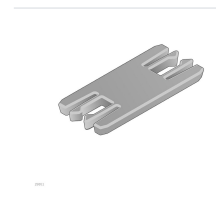

Item no. BRR-3842552240 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842552240

PA connecting element for extending cable duct runs and joining cable duct ends to curves. ESD conductivity across both connected cable ducts can be established using an overlapping cover and a self-tapping screw. Supplied in units of 10, colour signal grey RAL 7004.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Italy
Weight	0.0018 kg
Zolltarifnummer	84313900

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The connecting element 3842552240, made from polyamide (PA), joins cable duct ends together and connects cable ducts to curves, allowing flexible extension of cable management runs. When fitted with an overlapping cover and a self-tapping screw, it establishes ESD conductivity across both connected cable ducts - a practical feature for electrostatically controlled assembly environments.

- Connects cable duct ends and enables connection to curves
- ESD conductivity achievable via overlapping cover and self-tapping screw
- PA material, signal grey RAL 7004 - matches Bosch Rexroth assembly system colour scheme
- Packaging unit: 10 pieces
