DESCRIPTION

The Sliding Element 8 Flat Lockable from Bosch Rexroth is a compact, flat POM gliding component for the EcoSlide accessory range. It enables smooth manual linear adjustment of attachments along aluminium profiles with profile slot 8 and can be fixed in position using a clamping lever. Weighing just 23 g, the flat profile keeps installation height to a minimum - ideal for space-critical fixtures and production aids.

- Flat design - minimal installation height
- Lockable - position can be clamped and held after adjustment
- POM material: low friction, wear-resistant and resistant to many chemicals
- Direct compatibility with Bosch Rexroth profile system slot 8
- Supplied individually, ready to install
