DESCRIPTION

The 3842552605 housing element is a protective enclosure for the Bosch Rexroth HD 2/H transfer system. It is sized for workpiece pallets with a length of 320 mm and a width of 320 mm, covering the area below the conveying level. Protection above the conveying level must be specified separately for each application.

- Fits workpiece pallets 320 x 320 mm
- 180° version for straight transfer sections
- Guards drive and system components below the conveying level against mechanical and external interference
- Part of the modular Bosch Rexroth HD 2/H transfer system family
