## DESCRIPTION

The housing cover 3842552611 encloses the HD 2/H transfer system below the conveying level, preventing unintended access and shielding the drive components from external interference. The 400 x 400 mm variant with 180° opening is designed for straight conveyor sections and provides a complete lateral enclosure of the drive area.

- Precisely matched to 400 x 400 mm workpiece pallets in the HD 2/H system
- 180° version for use on straight conveyor sections
- Protects below the conveying level - above-level protection to be added application-specifically
- Weight 6.88 kg - rigid construction for continuous use in assembly technology
