DESCRIPTION

The housing element 3842552614 is a protective enclosure accessory for the Bosch Rexroth HD 2/H transfer system. It shields the unit below the conveying level from chips, dirt and mechanical interference from outside. The 180° variant provides full coverage of the underside. Protection above the conveying level is not included and must be planned individually per application.

- Fits workpiece pallets 480 mm x 480 mm
- 180° version for complete protection below the conveying level
- Direct accessory for the HD 2/H transfer system
- Guards against contamination and external interference
