DESCRIPTION

The housing element 3842552630 is designed for the Bosch Rexroth HD 2/H transfer system and fits workpiece pallets of 1200 x 1200 mm. It closes off the system below the conveying level, guarding against mechanical impacts and foreign-body ingress to ensure reliable operation. Coverage above the conveying level must be planned individually per application.

- Precise fit for HD 2/H with 1200 x 1200 mm workpiece pallet size
- 180° version for straight-line system integration
- Protection below the conveying level against mechanical and external interference
- Complements the modular assembly technology portfolio of Bosch Rexroth
