

Speicher-Modul für 8400 MotEC Motorsteuerung - Bosch Rexroth 3842552822

Item no. BRR-3842552822

Manufacturer Bosch Rexroth

Replacement memory module for the Bosch Rexroth 8400 MotEC decentralized drive platform. Stores drive and application parameters so a replacement MotEC unit can be commissioned without manual reconfiguration. Suited to assembly and conveyor systems with distributed motor control.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	85423290

DESCRIPTION

The 3842552822 memory module is an original spare part for the Bosch Rexroth 8400 MotEC decentralized drive platform. It retains drive and application parameters, allowing a replaced or faulty MotEC unit to be brought back into service without manual reprogramming.

- Original Bosch Rexroth spare part for 8400 MotEC
- Retains parameter data for fast controller swap
- Compact form factor, low weight (approx. 10 g)
- Minimizes downtime during maintenance and repair
