DESCRIPTION

The sliding rail 3842552972 is a wear and guide component for the Bosch Rexroth VarioFlow plus aluminium chain conveyor system. The 90° curve in the "Top" configuration directs the size-65 conveyor chain through horizontal direction changes without additional deflection rollers.

- Stainless steel 1.4301 material - high corrosion resistance, suitable for environments with elevated hygiene requirements
- Size 65 compatible with all VarioFlow plus 65 chain track sections in aluminium design
- 90° curve angle (top guidance) for compact conveyor layouts with direction changes in the horizontal plane
- Supplied as a single rod in standard length, packaging unit 1
