

Kettenspannrad 90+ Basic Unit, Baugröße 90 mm - Bosch Rexroth 3842553048

Item no. BRR-3842553048

Manufacturer Bosch Rexroth

Chain tensioning wheel for the VarioFlow plus aluminium chain conveyor system, size 90 mm. The Basic Unit design provides reliable chain tensioning at deflection points, keeping the chain at consistent tension throughout the conveyor line. Suitable for horizontal and combined conveyor layouts in assembly line operation.

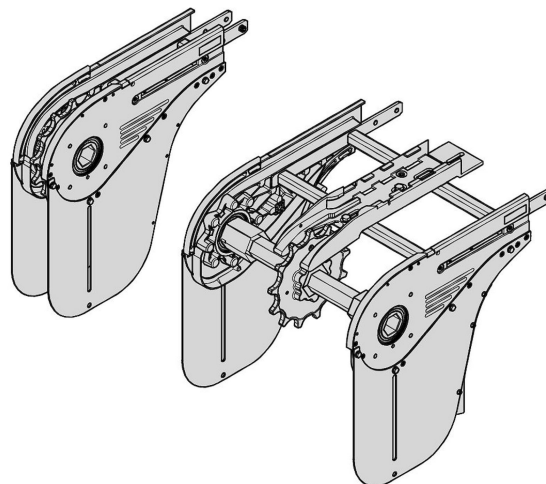

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.6 kg**

Zolltarifnummer **39269097**

29399

DESCRIPTION

The Chain Tensioning Wheel 90+ Basic Unit is a deflection and tensioning component for the modular VarioFlow plus aluminium chain conveyor system. It maintains correct chain tension at defined points along the conveyor, ensuring smooth and consistent chain travel without sag. At 0.6 kg, the component is lightweight and can be installed or replaced quickly during line extensions or reconfigurations.

- Size 90 mm - matches the VarioFlow plus aluminium profile and chain system in the 90 size range
- Compact Basic Unit design for straightforward fitting at deflection positions
- Low weight of 0.6 kg simplifies installation and modification of the conveyor line
- System-compatible with other drive and deflection components in the VarioFlow plus AL product range

TECHNICAL DATA

Attribute	Value
Size [b]	90 mm
Weight	0.6 kg
System	VarioFlow plus aluminium system
Installation area	Drive and deflection AL
