

H-Verteiler POWER 230 V für Systemleuchten SL LED - Bosch Rexroth 3842553142

Item no. BRR-3842553142

Manufacturer Bosch Rexroth

The H-Distributor POWER connects up to three SL LED system lights to a single 230 V mains supply. The compact unit fits directly into cable ducts of 40x40 or 45x45 mm and supports tool-free plug-and-play wiring. Suitable for ESD workstations.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg

STANDARDS & COMPLIANCE

ESD safe IEC 60529

DESCRIPTION

The H-Distributor POWER (230 V) is a multiple-blade connector for Bosch Rexroth SL LED system lights. It allows up to three luminaires to share one mains connection, simplifying the wiring layout at assembly and ESD workstations. The unit installs inside standard cable ducts (40x40 or 45x45 mm) and uses the same GST connector family (black = 230 V) as all other components in the SL LED lighting line.

- Connects up to three SL LED system lights to one 230 V mains outlet
- Fits cable ducts 40x40 mm or 45x45 mm for a clean, concealed installation
- GST connector (black) for safe, tool-free plug-and-play wiring
- Suitable for ESD-protected workstations
- Delivered with mounting hardware for 10 mm groove profiles
