DESCRIPTION

The switch bracket SH 1/M-B provides precise, repeatable positioning of proximity sensors on Bosch Rexroth transfer system conveyor sections. Its half-shell construction supports two mounting orientations, covering different detection directions without additional parts.

- Two mounting orientations via half-shell design
- Half shells in black polyamide - lightweight and corrosion-resistant
- Compatible with sensors 6.5 mm x 30 mm, M8x1 push-in fitting, rated sensing range SN = 4 mm
- Fastening hardware for conveyor section assembly included in scope of delivery
- Suitable for dry-room environments (relative humidity < 1 %)
