## DESCRIPTION

The Cable Hole 40 provides a clean, edge-free passage for cables through cover profiles in aluminium-profile-based assembly systems. Made from polypropylene (PP) in signal gray RAL 7004, it integrates visually with the Rexroth profile system and protects cable insulation from abrasion at the panel opening.

- Protects cables from sharp edges where they pass through cover profiles
- PP construction - lightweight, chemical-resistant, and durable in industrial environments
- Color-matched to the Rexroth aluminium profile system (signal gray RAL 7004)
- Pack of 10 for efficient stock management
