DESCRIPTION

The corner piece 22.5x30 joins same-width frame profiles at right angles, providing a clean termination for material levels at manual assembly workstations. The polyamide (PA) component in signal gray matches the visual standard of Rexroth workstation systems and is ready to install straight from the box, as fastening material is included.

- Profile slot 8 - fits the 22.5x30 profile grid of the Rexroth modular system
- PA material - lightweight, dimensionally stable, and durable in continuous use
- Signal gray finish - consistent appearance across the workstation system
- Includes fastening material (FS) - no separate hardware order required
- Packaging unit of 20 - cost-effective for series installations
