TECHNICAL DATA

Article authenticity	Original product
Colour	Orange
Condition of article	New
Country of Manufacture	Romania
Lenght	5 m
Weight	0.65 kg
Zolltarifnummer	85444290

DESCRIPTION

This 5 m mains cable connects Rexroth assembly technology workstations and equipment to British power outlets (GB standard). The PUR jacket (H07BQ-F) resists mechanical stress, oils and lubricants - standard demands in industrial production and assembly environments. The orange colour supports quick visual identification among mixed cabling at the workstation.

- 5 m length - gives sufficient reach and freedom of movement at assembly stations
- PUR jacket (H07BQ-F) - resistant to abrasion, oils and mechanical impact
- HD-GST connector - compliant connection for British mains sockets (GB)
- Orange colour - easy visual differentiation in multi-cable setups
