DESCRIPTION

WebFrame CheckIn (3842558262) is a 12-month rental licence that extends Bosch Rexroth ActiveCockpit with seamless deep-linking into external web applications. When a user clicks a report, the target web application opens immediately and receives the user credentials automatically - no separate login required.

- Automatic single sign-on: user rights are passed transparently to the third-party application on launch
- User-friendly administration interface for configuring links and access permissions
- Supports static deep-link and image URLs for precise navigation into the target application
- Valid for one Area, 12-month term from activation
- Renewal licence for a further 12 months available under article number 3842558263
