DESCRIPTION

The 45x45 HR half-round profile in anodized aluminum adds a single-sided rounded form to the Bosch Rexroth profile system. The smooth convex face reduces injury risk at exposed edges of machine guards, protective enclosures, and control panels, while the flat side retains full compatibility with the 45 mm modular grid via one standard profile slot.

- 45x45 HR cross-section, semicircular profile type - rounded outer face for safe, low-snag edges
- 1 open slot (slot 10, 45 mm modular dimension) - accepts all standard system connectors and fixings
- Anodized aluminum, natural color - corrosion-resistant, hard-anodized surface
- Variable length 50-6070 mm, cut-to-length pricing - no need to stock standard lengths
- Linear mass 1.8 kg/m, profile surface area 6.6 cm²
