Weight	0 kg
Zolltarifnummer	39269097

DESCRIPTION

The Roller Section D28 is a configurable conveying element for the Bosch Rexroth XLean system. Cut to the required length between 100 mm and 4500 mm, it enables gravity-fed or manually assisted transport of load carriers and small parts along lean production lines.

- **Flexible length:** Cut to order from 100 mm to 4500 mm - fits any workstation layout without modification.
- **Durable rails:** Galvanized steel construction provides lasting corrosion protection in industrial environments.
- **Low-friction PP rollers:** Polypropylene rollers deliver smooth, quiet material flow and long service life.
- **Direct system integration:** Designed for XLean conveyor assemblies; required accessory is the D28 round tube.

Technical data

Attribute	Value
Length min [L min]	100 mm

Attribute	Value
Length max [L max]	4500 mm
Rail material	Steel, galvanized
Roller material	PP (polypropylene)
Required accessories	Round tube D28
Article number	3842993321
