

Schiebetürprofil unten L40-3000, Nut 10, Aluminium eloxiert - Bosch Rexroth 3842993426

Item no. BRR-3842993426

Manufacturer Bosch Rexroth

Lower guide profile for the Bosch Rexroth sliding door system, designed to clip into strut-profile supporting frames. The half-round floor contour minimizes displacement force for smooth door travel. Accepts surface elements 5 or 6 mm thick; supplied cut to length from 40 to 3,000 mm, slot 10, packaging unit 1.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	76042100

DESCRIPTION

The sliding door profile bottom (article 3842993426) forms the lower guide rail in the Bosch Rexroth sliding door system for frames built from strut profiles. Its half-round floor contour keeps displacement force low, giving the door a smooth, consistent feel across the full travel range. The profile clips directly into the supporting frame and accepts surface elements with a thickness of 5 or 6 mm. Supplied as a cut-to-length piece, it can be ordered in any length from 40 to 3,000 mm to match the exact frame dimension.

- Half-round floor contour reduces displacement force for easy sliding
- Clips into strut-profile supporting frames without additional fasteners
- Compatible with surface elements 5 or 6 mm thick
- Variable cut-to-length: 40 to 3,000 mm, packaging unit 1
- Matching upper profile: 3842993425 (L40-3000) or 3842536531 (L3000, PU 10)

TECHNICAL DATA

Property	Value
Article number	3842993426
Description	Sliding door profile, bottom L40-3000
Material	Aluminum, anodized
Profile slot	10

Property	Value
Length min. (L min)	40 mm
Length max. (L max)	3,000 mm
Condition on delivery	Variable length (cut to size)
Packaging unit	1 piece
Surface element thickness	5 or 6 mm
