

Führungsstange LF12 VA, Vollwelle rostfrei, L150-2900 mm - Bosch Rexroth 3842993968

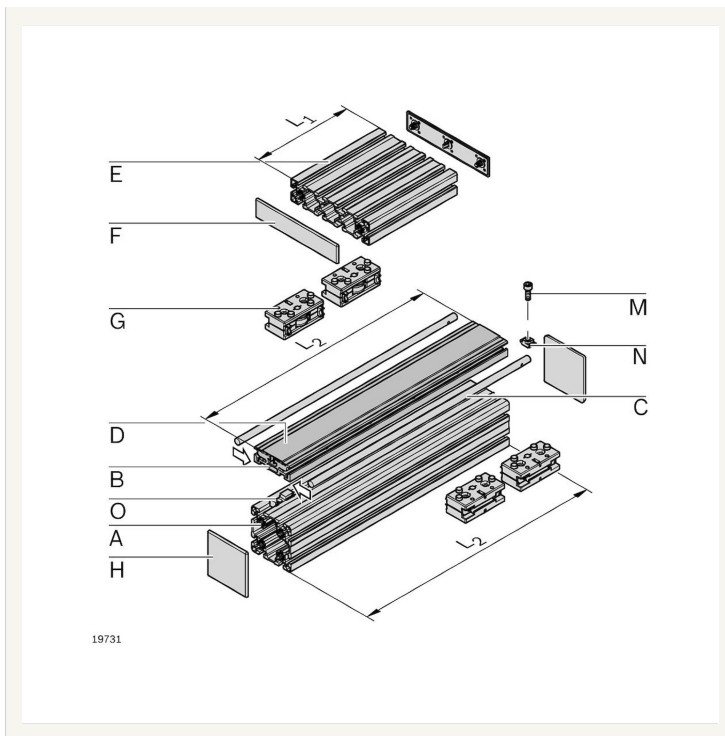

Item no. BRR-3842993968

Manufacturer Bosch Rexroth

Guide rod for the LF12S cam roller guidance system, made from an induction-hardened and polished solid stainless-steel shaft. The variable length from 150 to 2900 mm covers a wide range of assembly line configurations. Supplied ungreased; grease according to assembly instructions 3 842 527 226.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.1 kg
Zolltarifnummer	84831095

DESCRIPTION

The LF12 VA guide rod is a core component of the Bosch Rexroth LF12S cam roller guidance system. The solid stainless-steel shaft (VA), induction hardened and polished, delivers high wear resistance and corrosion protection - suited to assembly and handling systems with elevated hygiene or media-contact requirements.

- Solid stainless shaft: corrosion resistance without surface coating
- Induction hardened and polished: high surface hardness and guiding accuracy
- Variable length 150-2900 mm: cut to length for varying axis dimensions
- Packaging unit 1 piece: single-unit ordering available

TECHNICAL DATA

Attribute	Value
Condition on delivery	Variable length
Length min (L2 min)	150 mm
Length max (L2 max)	2900 mm
Material	Solid shaft VA, induction hardened, polished
Mass (m)	0.89 kg
Packaging unit	1 piece

Attribute**Value**

Delivery information	Ungreased; grease according to assembly instructions 3 842 527 226
