

Zahnriemen 30AT10, PU mit Stahldrähten, L 300-50000 mm - Bosch Rexroth 3842994821

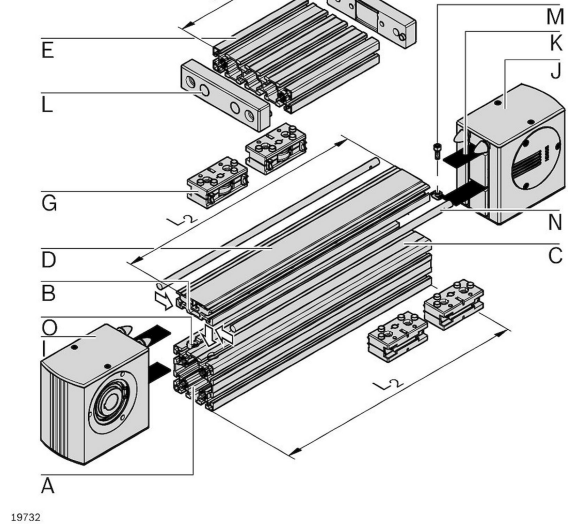

Item no. BRR-3842994821

Manufacturer Bosch Rexroth

Toothed belt in the 30AT10 profile, made from polyurethane with embedded steel wires, for the LF12S roller guide system. Available in lengths from 300 mm to 50000 mm, with a linear mass of 0.17 kg/m. Designed for direct integration into Bosch Rexroth LF12 linear guide assemblies.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.1 kg
Zolltarifnummer	40103900

DESCRIPTION

The 30AT10 toothed belt is the matched drive element for Bosch Rexroth LF12S roller guide systems. The AT10 profile at 30 mm width delivers high dimensional stability and precise force transmission in linear drive applications.

- PU with embedded steel wires - high tensile strength at low weight
- Lengths from 300 mm to 50000 mm - cut to project-specific requirements
- Linear mass 0.17 kg/m - straightforward weight calculation for system design
- System component for LF12S roller guides - drop-in fit without modification

TECHNICAL DATA

Attribute	Value
Profile	30AT10
Material	PU with embedded steel wires
Length L3 min	300 mm
Length L3 max	50000 mm
Length-related mass m'	0.17 kg/m
System series	Roller guide LF12S
