

Querverbinder QV 4 für TS 4plus Transfersystem, Spurbreite 443-1243 mm - Bosch Rexroth 3842994832

Item no. BRR-3842994832

Manufacturer Bosch Rexroth

The Cross-Connector QV 4 links two parallel conveyor lines in the TS 4plus transfer system, enabling lateral pallet transfer between lines. It accommodates track widths from 443 mm to 1243 mm and connects directly to standard TS 4plus line sections.

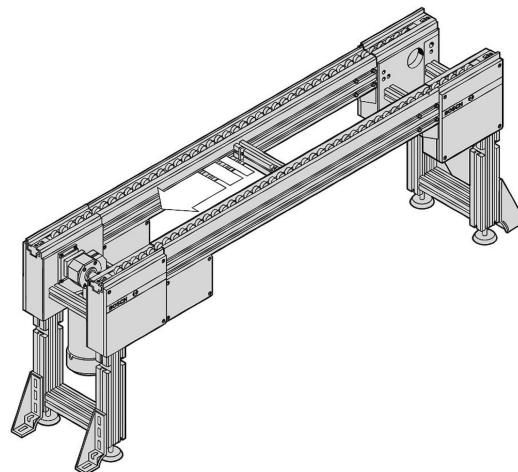

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.1 kg**

Zolltarifnummer **84313900**

00112549

DESCRIPTION

The Cross-Connector QV 4 is a longitudinal-transport component for the Bosch Rexroth TS 4plus transfer system. Installed perpendicular to the main transport direction, it bridges two parallel conveyor lines and allows workpiece carriers to move laterally between them - eliminating the need for separate handling units at the transfer point.

- Adjustable track width from 443 mm to 1243 mm, compatible with all standard TS 4plus line widths
- Direct connection to TS 4plus line section components - no special adapters required
- Modular design allows retrofit integration into existing TS 4plus installations

TECHNICAL DATA

Attribute	Value
Track width min [b min]	443 mm
Track width max [b max]	1243 mm
Weight	determined at configuration (manufacturer value: 0 kg)
System	Transfer System TS 4plus
Application area	Longitudinal transport, line section components
