DESCRIPTION

The Reinforcement SZ 2-ST 2 increases the mechanical rigidity of the support columns in the TS 2plus transfer system. Supplied unassembled with all fastening hardware included, it can be fitted directly on the line to match the required installation width.

- Length range 300 to 2000 mm for flexible adaptation to varying line widths
- Fastening material included - no separate hardware order required
- Supplied unassembled - installed on site by the operator
- Designed for the Bosch Rexroth TS 2plus transfer system
