

Förderstrecke ST 2/R-H ST, 200-6000 mm, Aluminium/Stahl - Bosch Rexroth 3842994972

Item no. BRR-3842994972 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842994972

Conveyor section for the TS 2plus transfer system with an adjustable length from 200 to 6000 mm. The anodized aluminium section profiles are delivered pre-assembled with corrosion-resistant steel or plastic guide and slide profiles. Suitable for installation locations 0, 1 and 2 in accumulating roller chain conveying.

DESCRIPTION

The conveyor section ST 2/R-H ST is a line component of the Bosch Rexroth TS 2plus transfer system, forming the load-bearing runway for longitudinal transport with accumulating roller chain. Two SP 2/R-H section profiles are supplied with guide and slide profiles already fitted, allowing a freely selectable section length between 200 mm and 6000 mm. The assembly is designed for installation locations 0, 1 and 2.

- Length freely selectable from 200 mm to 6000 mm - matches any line layout precisely
- Anodized aluminium section profile - lightweight, dimensionally stable and low-maintenance
- Corrosion-resistant steel or plastic guide and slide profiles - for reliable chain guidance and long service life
- Fully pre-assembled on delivery - reduces on-site installation effort

- Compatible with installation locations 0, 1 and 2 - adaptable to different line configurations

Technical data

| Attribute | Value |
|----------------------------|--|
| Length min (L min) | 200 mm |
| Length max (L max) | 6000 mm |
| Installation location (AO) | 0; 1; 2 |
| Section profile | Aluminium, natural, anodized |
| Guide profile | Steel, corrosion-resistant |
| Slide profile | Plastic or steel, corrosion-resistant |
| Scope of delivery | 2x SP 2/R-H section profiles with assembled guide and slide profiles |
| Required accessories | ST 2/R-H adapter plate kit; if GP = 0, adapter plates between each section joint |
| Recommended accessories | Section supports SZ 2/...-H, profile connector, cross connector, cover rail for cable duct |
