DESCRIPTION

The ST 2/C-H ST conveyor section is a track element for the TS 2plus transfer system, providing reliable guidance for plastic flat top chains across configurable lengths from 200 mm to 6000 mm. Each delivery includes two SP 2/C-H section profiles with guide and slide profiles pre-assembled, reducing on-site installation time.

- Length range 200 mm to 6000 mm for flexible line layouts
- Anodized aluminium section profile - lightweight and corrosion-resistant
- Corrosion-resistant steel guide profile for consistent chain engagement
- Slide profile in plastic or corrosion-resistant steel - selectable to match load requirements
- Three installation locations (AO 0, 1, 2) for integration at different positions along the transfer line
- Maximum operating temperature +40 °C - suited to standard industrial and assembly environments
