DESCRIPTION

This EPDM rubber profile for profile slot 10 cushions contact surfaces on assembly benches and workstations, eliminating hard edges when setting down sensitive components. It also serves as a footrest, clipping onto the cross strut of a workstation from the top and front. The variable length format - supplied from 30 to 30,000 mm - allows exact cut-to-length ordering with no material waste.

- ESD-compliant: conduction resistance $1 \times 10^9 \Omega$, suitable for ESD workstation systems
- Variable length 30-30,000 mm, packaging unit 1 piece
- EPDM material - resistant to ageing, ozone and moderate chemicals
- Tool-free installation by clipping into profile slot 10
