

Variable Laufrolle EcoFlow, Edelstahl, EL 105-1005 mm - Bosch Rexroth 3842995008

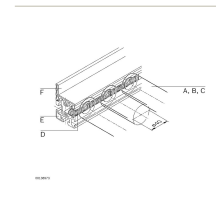

Item no. BRR-3842995008 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842995008

Variable-length idle roller for the Bosch Rexroth EcoFlow conveyor system, covering roller lengths from 105 to 1005 mm in a single part. Stainless steel construction handles loads up to 150 N and withstands demanding assembly-line environments.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Weight	0 kg
Zolltarifnummer	83022000

DESCRIPTION

The EcoFlow variable idle roller (3842995008) is a replacement and extension component for Bosch Rexroth EcoFlow manual production and linking systems. Its adjustable effective length - from 105 to 1005 mm - eliminates the need to stock multiple fixed-length roller variants, simplifying spare-parts management across different track widths.

- Single part covers EL 105 to 1005 mm - reduces inventory variants
- Maximum load capacity of 150 N for reliable workpiece carrier transport
- Stainless steel construction: corrosion-resistant, easy to clean
- Direct replacement or extension part for EcoFlow conveyor sections

Technical data

Property	Value
Roller length min (EL min)	105 mm
Roller length max (EL max)	1005 mm
Force (Fmax)	150 N
Material	Stainless steel
