

Vereinzeler VE 4/D-100 für Fördersysteme mit 100-mm-Profil - Bosch Rexroth

3842998054

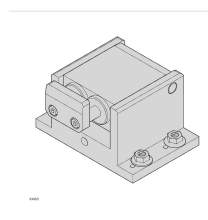

Item no. BRR-3842998054 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842998054

The VE 4/D-100 stop gate singulates workpiece carriers on assembly conveyor lines using a 100 mm profile. It holds back successive carriers and releases them one at a time, ensuring precise cycle timing and uninterrupted material flow. The unit weighs approximately 10 g for easy integration into existing transfer systems.

DESCRIPTION

The Bosch Rexroth VE 4/D-100 is a stop gate unit designed for workpiece carrier singulation in conveyor systems built on the 100 mm profile series. By releasing one carrier at a time while retaining the next, it enables synchronised assembly cycles and reliable in-line buffering.

- Precise singulation of workpiece carriers for reliable cycle-synchronised operation
- Matched to the 100 mm conveyor profile of Bosch Rexroth transfer systems
- Low unit weight (approx. 10 g) - minimal additional load on the conveyor structure
- Compact design for installation in space-restricted line sections
