

Förderbahn Lean mit Abschlussplatte und Rollenelementen, variabel - Bosch Rexroth 3842998386

Item no. BRR-3842998386 **Manufacturer** Bosch Rexroth**Manufacturer no.** 3842998386

Aluminum U-profile conveyor track for manual workstation linking in assembly and intralogistics, fitted with roller elements with or without roller flange (RE45, RE45SK). Configurable with or without lateral guide and rail holder stop function. Available as ESD-conductive version.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Germany
Weight	0 kg
Zolltarifnummer	84283920

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Lean conveyor track with stop plate connects manual workstations in assembly lines and intralogistics flows. The aluminum U-profile accepts roller elements with or without roller flange (RE45, RE45SK) and can be configured in lengths from 355 mm to 6000 mm. Each unit is delivered fully assembled as a matched pair of right and left conveyor sections complete with stop plates.

- Roller elements with or without roller flange - four colors available for kanban or good/reject-parts visualization
- Rail holder with or without stop for controlled workpiece buffering
- Optional lateral guide for directed material flow
- ESD-conductive version available (U-profile: aluminum plain)
- Delivered fully assembled - ready for immediate installation

Technical data

Specification	Value
Material	Aluminum profile
Conveyor medium	Roller elements with/without roller flange (RE45, RE45SK)
Track length min [L]	355 mm
Track length max [L]	6000 mm
Rail holder version	With or without stop
Lateral guide	With or without
Conductivity (ESD)	Yes / No (version-dependent)
Scope of delivery	Two conveyor sections (right/left) with stop plates
Delivery condition	Fully assembled
Packaging unit	1
