DESCRIPTION

The 8981020124 dismantling tool is designed for removing roller chains in Bosch Rexroth assembly and transfer systems. Its threaded mandrel accepts a size-19 hexagonal wrench as a lever arm, providing controlled torque input during chain removal. Precision-milled grooves locate the chain links exactly, preventing slippage throughout the dismantling process.

- Hexagonal fixture size 19 compatible with standard ring spanners and ratchets
- Positioning grooves for secure, accurate chain-link engagement
- Fully assembled and ready to use on delivery
