STANDARDS & COMPLIANCE

ISO 7089-6 ISO 4762

DESCRIPTION

The "Compact" door lock secures swing doors in aluminum profile structures without requiring any profile machining. The standard locking variant assigns a unique key to each lock, making it suitable wherever keyed-alike operation is not needed. An emergency release for unlocking from the inside can be added after installation (gap dimensions per assembly instructions 3 842 554 192).

- Opens to the left and right without modification
- Compatible with a wide range of profile combinations, slots 8 and 10
- Concealed fastening screws for a clean finish
- Die-cast aluminum housing with signal-gray PP cover (RAL 7004)
- Galvanized steel fastening hardware included
- Retrofittable with Compact emergency lock (Art. 3842554134)
