

ESD-Kabelkanal 40x20 mm, PVC schwarz, N10, L=2000 mm - Bosch Rexroth 3842555670

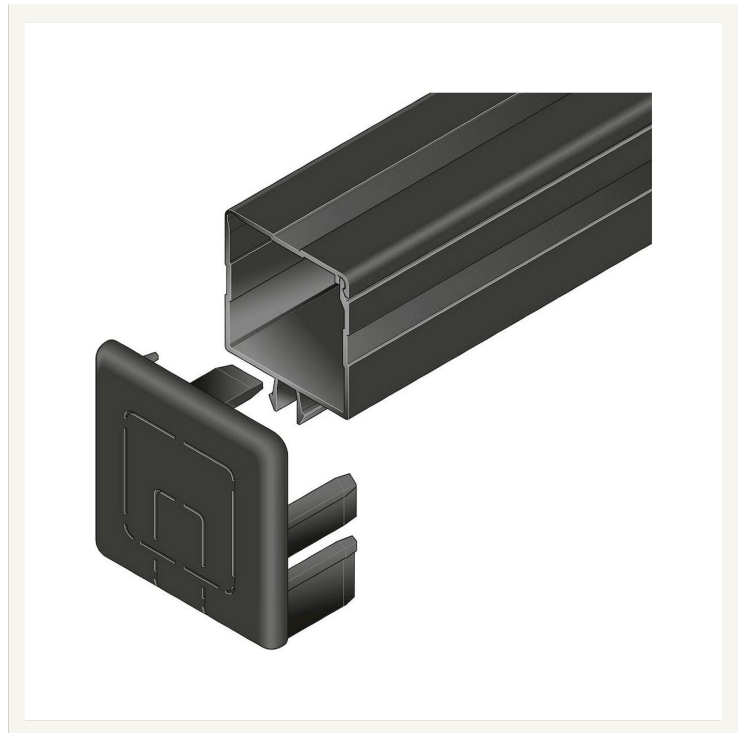

Item no. BRR-3842555670

Manufacturer Bosch Rexroth

Cable duct in ESD-conductive PVC for safe routing of electrical lines at electrostatic-sensitive workstations. Cross-section 40x20 mm, length 2000 mm, clips directly into the 10 mm slot. Captive cover, large usable volume, VDE certified.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Country of Manufacture	Germany
Lenght	2000 mm
Weight	0.6 kg
Zolltarifnummer	39259020

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The 3842555670 cable duct is designed for ESD-sensitive assembly workstations. The conductive PVC material dissipates electrostatic charges safely; a proper conductive connection to the N10 aluminium profile must be ensured by a suitable design measure, for example a screw. The 40x20 mm cross-section and 2000 mm length provide ample capacity for typical wiring runs in production environments.

- Captive cover - stays attached when opened or closed
- Simple, fast assembly - clips straight into the 10 mm slot
- Large usable volume for flexible cable routing
- Cover cap with pre-punched knockouts for cable entry
- ESD-conductive, VDE certified
