DESCRIPTION

This self-connection element extends the Vario grab container system at the 90x90 mm grid pitch, providing a grab ledge and refill end-piece that can be assembled independently on the line. The ESD-safe design protects electrostatic-sensitive components from discharge at manual production workstations.

- ESD-safe - reliable protection for sensitive electronics assembly environments
- ABS construction - lightweight, dimensionally stable, and resistant to everyday chemicals
- Complete delivery - all fastening hardware (sheet metal screws, cylinder head screw, sliding block) included
- Black finish similar to RAL 9005 - consistent appearance across the Vario system family
