DESCRIPTION

This self-connection element allows flexible extension and individual configuration of Vario grab bins (180x90 mm) in manual assembly lines. The ESD version protects electrostatically sensitive components and meets the requirements of ESD-compliant workstations.

- ESD-compliant: protects sensitive electronic assemblies against electrostatic discharge
- ABS material, black (similar to RAL 9005): dimensionally stable for industrial assembly environments
- All fastening hardware included: direct mounting without additional parts
- Compatible with the Bosch Rexroth Vario bin system and assembly profiles with groove 6
