## DESCRIPTION

Stacking bow that enables safe stacking at large stacking heights and distributes the load evenly.

- Enables stable stacking even at large stacking heights.
- Distributes the load evenly and relieves the lower containers.
- Quickly fitted and securely locked.
- Increases the stability of the whole stack.

For tall, stable container stacks in storage and dispatch.

Made of plastic, produced in Germany.

## Technical data

|                              |                                                                                    |
|------------------------------|------------------------------------------------------------------------------------|
| Suitable for basic dimension | 800 x 600                                                                          |
| Material                     | PA                                                                                 |
| Made up of                   | 2 stacking frames / 8 hinges                                                       |
| Colour                       | Stacking frame: traffic black similar RAL 9017 / Hinges: sky blue similar RAL 5015 |
