DESCRIPTION

The 3842990111 grip rail is an anodised aluminium accessory for the Bosch Rexroth Assembly Technology modular system. Mounted to aluminium profiles on assembly lines, transfer systems and workstation structures, it gives operators a firm, ergonomic grip when moving workpiece carriers and frame components by hand. The anodised finish provides lasting resistance to corrosion and wear. The standard variant 3842990111 can be ordered in any length from 50 to 3000 mm; this unit is supplied at 1000 mm.

- Material: anodised aluminium - corrosion-resistant and durable
- Length 1000 mm; available from 50 to 3000 mm in 1 mm increments
- Low weight for easy handling in assembly processes
- Compatible with Bosch Rexroth profile systems; fixing hardware sold separately
