DESCRIPTION

The sliding door profile AL 45/45 (article 3842990115), cut to 1000 mm, is made from anodized aluminum and designed to accept 8 mm surface elements within closed frames. A setscrew seated in the profile slot provides the clamping force; cover caps protect the open profile ends and end pieces act as stops for the sliding element.

- Material: aluminum, anodized - corrosion-resistant for continuous industrial use
- 45x45 mm cross-section, 10 mm slot - compatible with the Bosch Rexroth AL 45 assembly system
- 8 mm element clearance - fits standard safety glazing and polycarbonate panels
- Setscrew clamping - tool-assisted, backlash-free fixing without additional brackets
- Supplied at 1000 mm (cut lengths from 100 to 6000 mm available in 1 mm increments)
