DESCRIPTION

The ST 2/B conveyor section is a track unit component for the Bosch Rexroth TS 2plus transfer system. It conveys workpiece carriers via belt and is rated for ESD-sensitive assembly and production environments. Profiles are delivered unassembled and can be cut or configured to lengths between 60 mm and 6000 mm.

- ESD-rated for electrostatically sensitive manufacturing and assembly processes
- Conveying level height 80 mm - dimensionally compatible with TS 2plus components
- Anodized aluminum section profile for structural rigidity and corrosion resistance
- Polyamide guide profile for smooth, low-wear belt guidance
- Adjustable length from 60 mm to 6000 mm for flexible line layouts
- Suitable for dry room operation down to <1 %rH
