## DESCRIPTION

The LF6C clamping profile from Bosch Rexroth is a standardized retaining profile for the LF linear assembly and conveyor system family. This unit is cut to 1000 mm; the base product (article 3842992925) is available as cut-to-length stock from 150 mm up to 3000 mm. The profile locks cables, hoses, and attachments firmly into T-slot carriers with a positive-fit clamp action.

- Custom cut length: 150 mm to 3000 mm available to order
- Positive-fit clamping in T-slot compatible profiles
- Tool-free installation in compatible LF system carriers
- Consistent with Bosch Rexroth LF family system components
