

Abdeckprofil LF12 für Laufrollenführung, 1000 mm, eloxiertes Aluminium - Bosch Rexroth 3842993062-1000

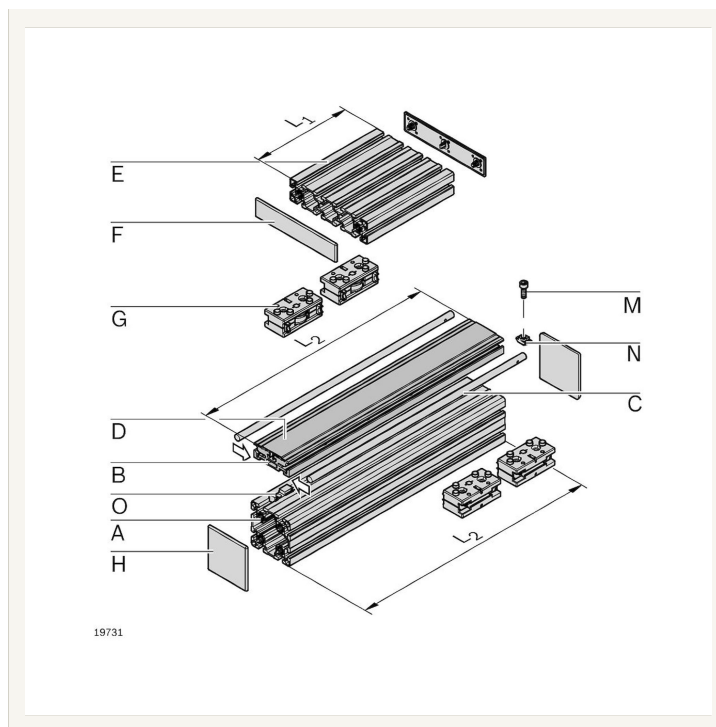

Item no. BRR-3842993062-1000

Manufacturer Bosch Rexroth

Anodized aluminum cover profile for the Bosch Rexroth LF12S cam roller guide, cut to 1000 mm. The profile closes profile slot 10 to protect the guideway from dust, swarf, and moisture. Available in lengths from 150 to 6000 mm; this unit ships ready to install without further machining.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	39169010

DESCRIPTION

The LF12 cover profile seals the open profile slot 10 of the Bosch Rexroth LF12S cam roller guide, keeping dust, chips, and moisture out of the running surface. Supplied at 1000 mm, it fits directly into standard LF12 linear axes without modification.

- Anodized aluminum construction - corrosion-resistant and wear-resistant for industrial environments
- Black finish - matches standard LF12 profile aesthetics
- 1000 mm cut length - ready to install, no on-site trimming required
- Profile slot 10 - positive-fit engagement with LF12S cam roller guide profiles
- Manufacturer length range 150 to 6000 mm - custom lengths available on request
