

Rollenstrecke D28 für XLean Förderbahn, 100-4500 mm - Bosch Rexroth 3842993321-1000

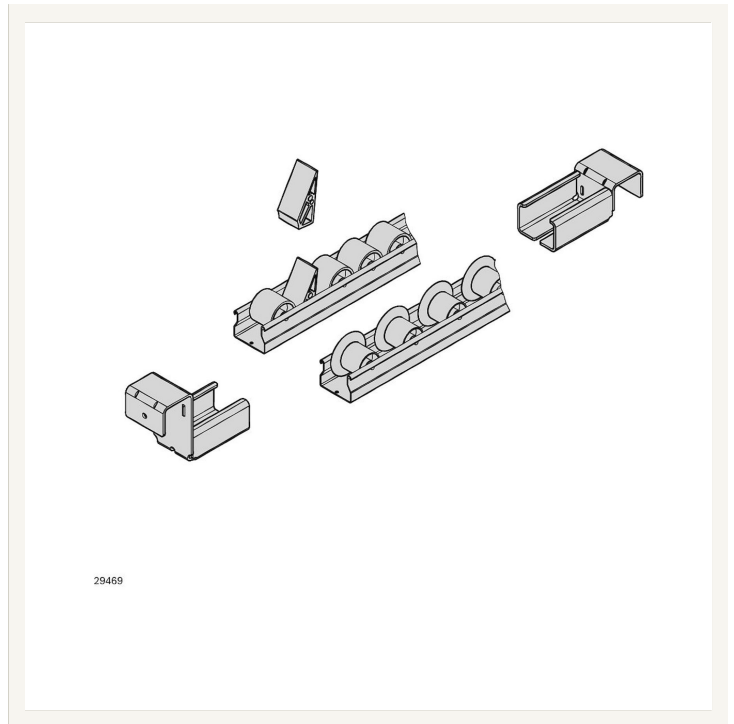

Item no. BRR-3842993321-1000

Manufacturer Bosch Rexroth

Roller section for the XLean conveyor track system, designed for use with 28 mm round tube. Galvanized steel rails and PP rollers deliver smooth, low-maintenance gravity or push transport in manual assembly lines. Length freely configurable from 100 mm to 4500 mm; required accessory: Round Tube D28.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	39269097

DESCRIPTION

The Roller Section D28 is a core component of the Bosch Rexroth XLean conveyor track system, providing accumulation-free, gravity-assisted transport of workpiece carriers and bins in manual production environments. Galvanized steel rails ensure lasting corrosion resistance; polypropylene (PP) rollers run quietly with no lubrication required.

- Configurable length from 100 mm to 4500 mm for flexible track layouts
- Galvanized steel rails - high dimensional stability and corrosion protection
- PP rollers - smooth, quiet operation, maintenance-free
- System-compatible with all XLean profiles and connectors using Round Tube D28
- Fast assembly using the modular XLean kit principle

TECHNICAL DATA

Attribute	Value
Length min [L min]	100 mm
Length max [L max]	4500 mm
Rail material	Steel, galvanized
Roller material	PP (Polypropylene)
Required accessory	Round Tube D28
System	XLean conveyor track
