DESCRIPTION

The grooved plate 30x100 L/R (article 3842993337) closes the outer edge of grooved-plate panel assemblies in the Bosch Rexroth modular assembly system. Its 8 mm lateral slot creates a defined, positive-locking outer stop against adjoining profiles and structures. This piece is cut to 1000 mm; the same base article is available in lengths from 100 mm to 5600 mm.

- 8 mm lateral slot defines the outer boundary of the grooved-plate arrangement
- Plates are joined using sliding block 3842520922 - recommended rate: 3 sliding blocks per metre of profile length
- Combines with grooved plate 30x100 M (3842993336) to build panels of any required width
- Compatible with strut profile 30x30 as the supporting substructure
