DESCRIPTION

The Door Handle Profile S5 adds a functional, visually clean grip zone to aluminium profile structures built with Bosch Rexroth Assembly Technology components. It clips directly into the 5.0 mm slot (S5) - no screws or drilling required - making it straightforward to retrofit on enclosure doors, sight guards and machine panels. The anodized aluminium surface resists corrosion and maintains its shape under continuous industrial use.

- Slot width S5 (5.0 mm): direct fit to standard Bosch Rexroth profile slots
- Length 1000 mm: can be cut to the required installation dimension
- Material: aluminium, anodized - corrosion-resistant, lightweight and durable
- Tool-free clip-in installation, no drilling needed
- Consistent appearance within the modular profile system
