DESCRIPTION

The 3842993429 edge protector at 1000 mm is an anodized aluminum section designed for S5-series Bosch Rexroth structural profiles (slot width 5 mm). Fitted onto exposed profile edges, it prevents mechanical damage and gives frames, enclosures, and workstation structures a clean, professional finish.

- Material: aluminum, anodized - corrosion-resistant and durable
- Slot width s: 5.0 mm - direct fit for S5 Rexroth assembly profiles
- Length: 1000 mm - cut to size, no further machining required
- Tool-free installation onto the open profile edge
- Door handle profile variant also available as article 3842993427 (same slot width)
