

Führungsstange LF12 VA 1000 mm - Edelstahl, induktiv gehärtet - Bosch Rexroth 3842993968-1000

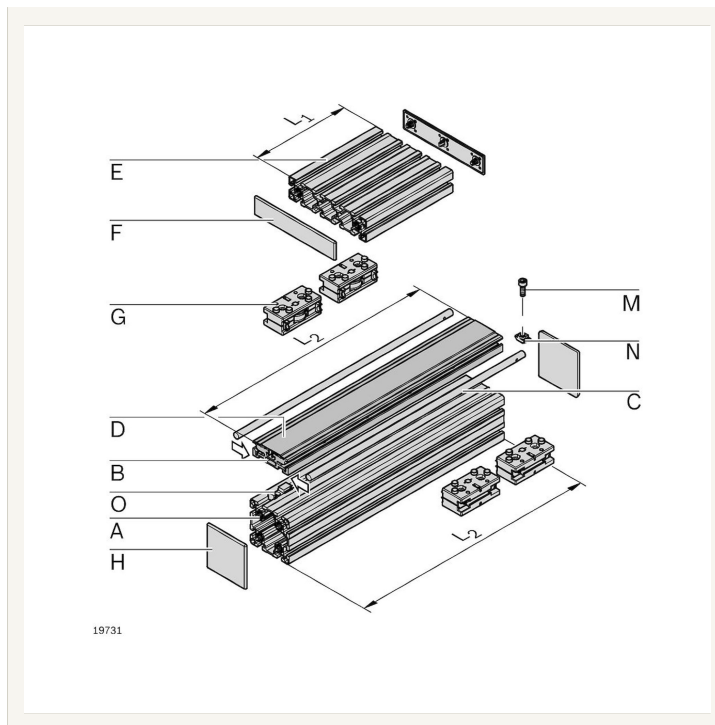

Item no. BRR-3842993968-1000

Manufacturer Bosch Rexroth

Guide rod for the Bosch Rexroth LF12S cam roller guide, made from induction-hardened and polished solid stainless steel (VA). The variable length range of 150 to 2900 mm allows flexible adaptation to different assembly lengths. This unit is supplied cut to 1000 mm.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	84831095

DESCRIPTION

The LF12 VA guide rod is the load-bearing linear element of the LF12S cam roller guide. Its hardened and polished running surface delivers precise, consistent carriage travel under sustained load and in demanding environments.

- **Corrosion-resistant material:** Solid stainless steel (VA) shaft, suitable for humid or chemically aggressive conditions.
- **High wear resistance:** Induction hardening and precision grinding of the running surface maintain accurate guidance over the product lifetime.
- **Flexible cut-to-length:** Standard length 1000 mm; variable lengths from 150 mm up to 2900 mm available on request.
- **System-compatible:** Matches all carriages and accessories in the LF12S series.

TECHNICAL DATA

Attribute	Value
Article number	3842993968-1000
Series	Cam roller guide LF12S
Supplied length [L2]	1000 mm
Length min [L2 min]	150 mm
Length max [L2 max]	2900 mm

Attribute	Value
Material	Solid shaft VA, induction hardened, polished
Mass [m]	0.89 kg
Condition on delivery	Ungreased; grease according to assembly instructions 3 842 527 226
Packaging unit	1 piece
