

Zahnriemen 30AT10 N M, Länge 1000 mm - Bosch Rexroth 3842994821-1000

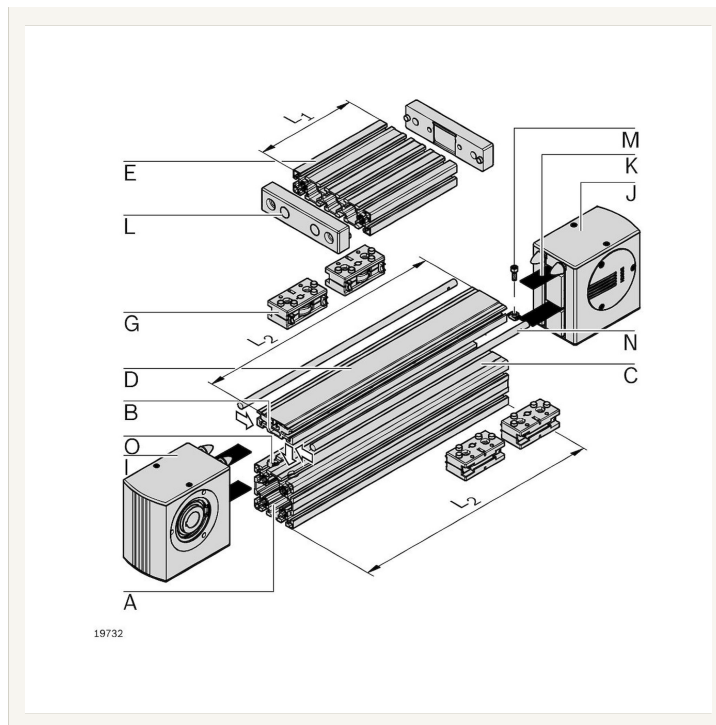

Item no. BRR-3842994821-1000

Manufacturer Bosch Rexroth

AT10-profile toothed belt for the Bosch Rexroth LF12S cam roller guide, cut to 1000 mm. Made from polyurethane with embedded steel wires for high tensile strength and dimensional stability. Designed for linear transfer and assembly systems in the Rexroth modular range.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	40103900

DESCRIPTION

The 30AT10 N M toothed belt is a drive belt for the Bosch Rexroth LF12S cam roller guide system. The AT10 tooth profile delivers positive, slip-free engagement and low-backlash linear motion for transfer and feed applications. Polyurethane construction with embedded steel wires provides high flexibility combined with tensile strength and low elongation. This unit is supplied at 1000 mm; custom lengths from 300 mm to 50000 mm are available.

- AT10 profile, 30 mm wide - positive drive with no slip
- Material: PU with embedded steel wires - high tensile strength, low elongation
- Length-related mass 0.17 kg/m - lightweight, low inertia
- Available cut to length from 300 mm to 50000 mm
- Matched system component for LF12S cam roller guide - direct fit, no modification required

TECHNICAL DATA

Attribute	Value
Type	30AT10 N M
Supplied length	1000 mm
Length [L3 min]	300 mm
Length [L3 max]	50000 mm
Material	PU with embedded steel wires

Attribute	Value
Length-related mass [m']	0.17 kg/m
Associated series	Cam roller guide LF12S
